 Occupation: _____ Would you like to become a volunteer? Yes No

Financial Resource

- The Association's revenue is derived from annual events, from interest on deposited funds, from grants and donations and from membership fees.
- Small grants and donations, generally relating to cultural events, are regularly received from the Royal Thai Embassy and Thai Airways International. As well as individual sponsors.
- At present, the Association generates small surpluses each year, but these are insufficient to provide significant resources for future development.
- The Association has sought funds from state Government agencies for specific programs. The Association has received grants from the Office of Multicultural Interests for courses aimed at helping both new Thai families and members of the general public to develop awareness of the similarities and differences between Thai and Australian culture.
